Payment

Please make cheques payable to '*Brigade Models*'. Overseas orders send International Money Orders or Sterling cheques please. When sending orders from abroad, especially large ones, we recommend that you use Registered Post, Guaranteed Delivery or an equivalent service to ensure that your payment arrives safely. We cannot take any responsibility for your order until we've received it.

We accept PayPal and all major credit cards for online orders at our website. We can also accept PayPal and credit cards at shows.

VAT

Non-EU residents ordering online can now benefit from our VAT-registered status because you will not have to pay this tax. Online orders have VAT deducted automatically, for other orders please contact us with your order for a quote. However, if you purchase from us at a show you will have to pay VAT, regardless of where you are from.

PLEASE READ THIS BIT :

Brigade Models is a part-time business run by two wargamers. Because we have full-time jobs, these sometimes must take priority, so bear this in mind if your order is delayed. Please allow up to four weeks for your order to be despatched, although we hope to fulfil almost all orders much quicker than this – generally within a week. If you have an e-mail address please let us know as this is the easiest and quickest (and cheapest !) way for us to contact you if necessary.

All models supplied unassembled and unpainted. Flying stands are not provided with individual models except in fleet or squadron packs. Packs of stands are available in our accessories range. Celtos figures are supplied with a 25mm (or 40mm for larger models) round plastic base.

SAFETY PRECAUTIONS

These models are detailed scale models for adults, not toys. As such we do not recommend their use by children under 14 years old. We cast all of our metal models in lead-free pewter; this must not be chewed or swallowed, as this may be harmful. Metal models may have sharp points or edges – take care when handling. Always wash hands after handling any models. When working with resin products work in a well-ventilated area. When sanding, drilling etc wear a mask and avoid breathing metal or resin dust.
